

Inside the Suitcase

One sunny spring weekend, Mum announced, "Time for a spring clean! Let's tackle the shed today", she announced to Dad. As we approached the shed, I opened the door and saw cobwebs and dust coating things packed in storage. As we started to clear stuff, I came across an old suitcase. Mum said, "That was your grandfather's suitcase". I decided it would be the perfect suitcase to take on an adventure! It had plenty of space and treasures inside.

I took the suitcase inside, ready to explore. Click, and the case opens. I lifted the lid and was shocked at what was inside. I saw a set of shiny shades, a magic map and some moldy mayo! What could these be for? Why would he have kept these items? I closed my eyes for bed that night, my imagination running wild. What sort of adventure could I go on with these items?

The next morning I wake up and decide I am going to go on an adventure. With the suitcase that I found yesterday in the shed. I got changed in the oldest things I had in case I did something dirty. After that, I got the suitcase and walked to my friend's house Indie and Dani. I rang the doorbell and both of them answered the door. I told them that I found a suitcase in the shed at home yesterday and it was my grandfathers. I told them if they would like to go on the adventure with me and the suitcase. They immediately both said yes happily.

We began to walk. A few minutes passed and it was becoming darker and darker. Up ahead I could slightly see a dark tunnel. A few minutes went by and we arrived at a dark scary tunnel. Dani and Indie became a bit scared but I stayed brave. I told them just to be brave and to stand behind me. Even i felt a little nervous. An hour went by and we could not stand taking another step. But then I heard a loud noise and we kept walking slowly and quietly. Then we saw a big monster sleeping and we tried to walk past it. The monster was so stinky and smelly we had to block our nose when we were walking past. But then Dani Accidentally stepped on a stick. Then the monster woke up and got super mad so he started chasing us. As we started to run the monster got closer and closer to us. But then I remembered that in the suitcase was some mody mayo. I unscrewed the lid of the moldy mayo and dropped it on the ground to see if it would stop chasing us. But when the monster stopped and licked some of the moldy mayo off the side of the jar. He just all I of a sudden chucked it and carried on chasing us. Out of nowhere the monster stopped and just walked back. We all just assumed that he was still tired or he was just so exhausted from chasing us. After a while we finally got to the end of the scary dark tunnel.

After spending nearly two hours in the scary dark tunnel we began to walk. After a while it became really hot, then we realized that we had arrived at bubble beach. It was so hot and sunny there was nice fluffy sand and nice clear water. When we dipped our feet in the water it felt like we were in a bubble bath. We decided to relax on the beach for a little while because we were so tired. It was so hot that we started to cry because our eyes were burning from the sun. Then Indie reminded us that in the suitcase were the shiny shades. We all took turns having the shiny shades. After all of us had a turn We left bubbles beach and carried on walking.

We keep walking and then come across apple side woods. As we walked through it we noticed that there were bright colored apples growing on the trees. There were lots of different ways to go. Dani says that she will tell us the directions. A few minutes go by. Then Indie tells Dani to stop doing the directions because she thinks that we are going the wrong way. Then I remember that the last thing in the suitcase is the magic map. Indie and Dani took turns telling me the directions. Just to make sure that Dani doesn't put us in the wrong direction again. A few minutes went by and Finally we were out of the apple side woods.

I checked the suitcase because it felt super light and then I saw that there was nothing left in the suitcase. What a great adventure we have had, I said to Indie and Dani. We were all sad to leave but then I said the bright side is that we did it together and we will always remember doing it.
